this is how i imagine

The Next Life

Four Worlds

Eden

The New Jerusalem City

The Infinite Heavens Outer Space

And The Throne

first off

Eden is restored

animals are in harmony

and the earth is now wonderful

you have floating islands

that bridge heaven and earth

and you’re on floating stairs

that pop up

only when you take each step

in trust

you go high up to the highest level

out of the sky

and then boom

you’re in outer space floating like woahhhh

infinite planets

solar systems

worlds beyond number

creatures unheard of

you can fast travel to planets like zoooom

jimmy neutron

gotta blast !!

and The New Jerusalem

somewhere on earth as well

the magnificent Golden city

the symmetry

the order

the magnitude

and Yehoshua

flies over the tallest buildings like a comet

The celestial superhero flying fast zoooooom

here comes SUPERMAN!!!

while the crowd cheers like WOAHHH HOORAY

and then Kingdom of God

He sits with his royal

family and guardians

a place for all of us to dine

and celebrate

and then the magnificent place of the throne

Where GOD sits as king

and the Guardians around him

soo awesome 🤩

we can finally be kids again

like babies in a infinite playland 😁

no more trauma

Yehoshua

he’s like the main character in every world

In Eden he’s The Almighty GrandFather !!

In the New City he’s The Cosmic Superman!!

In The Kingdom, He’s the King !!

In The Heavens He’s the Elder over the Universe

Wowwowoww

don’t worry

we got a long journey ahead of us

it’s time for the Journey to Heaven

Let’s Go!!!!
